### What's Happening Now?

Earlier this month, UDOT released updated interchange design concepts for both the Shepard Lane and Glovers Lane alternatives. In addition to these updated designs, an updated cost comparison for these interchanges has also been completed. This cost comparison can be found under Refined Alternatives on the Documentation page of the project website.

### Next Steps

In the coming months, the study team will continue analyzing the alternatives in greater detail. Further changes to the alignments, interchange designs, impacts, and cost estimates may occur during this time. The results of this analysis will be reported in the Draft Environmental Impact Statement, which will be available for public comment and at public hearings summer 2012. After the formal comment period next summer, any resulting changes will be included in a Final EIS which will be made available to the public in spring 2013. A final decision on a preferred alternative will be made in summer 2013.

### Questions? Concerns?

We encourage you to submit your comments and ask questions. If you would like to meet with a study representative or hold a neighborhood meeting, please call our project hotline at 877-298-1991 or email us at [westdavis@utah.gov](mailto:westdavis@utah.gov).

### Stay Involved and Informed

We invite you to keep learning about the EIS process and to be involved in the West Davis Corridor Study. Our website is a great place to find the information you need and to learn about the various ways you can participate.

On our website you can:

- Learn about the [EIS process](#);
  - Review the [EIS timeline and schedule](#);
  - View upcoming events and how you can [be involved](#);
  - [Contact our team](#) to ask questions;
  - Review EIS [phases and chapters](#), [local city master plans](#), [previous planning studies](#), [press releases](#) and [frequently asked questions](#).
-
